If you offer Ketamine, Spravato or TMS, have you ever stopped for a second and asked yourself:

Have you ever stopped for a second and asked yourself:

“What does my agency actually track?”

Do you know your numbers?

Your cost per new patient in the chair?

Not cost per lead.

Not cost per click.

Not "engagement rate."

Cost per actual patient.

Do they include their marketing fee in the expenses when they calculate it?

(Spoiler: they probably don't.)

Here's the thing that you already know:

Leads don't pay your bills.

Patients do.

So let me ask you:

Do you know your cost per acquiring a new patient?

If the answer is "no" or "I think it's around..." We should talk.

Because I can tell you that number in about 10 minutes.

And more importantly, I can tell you where you're losing money and how to fix it.

My name is Oriel Mor.

Since 2021, I've managed over \$1,000,000 in ad campaigns across 63 industries (\$500K of it this year alone).

And here's my simple offer to you:

Book a 30-minute call with me.

I'll audit your marketing at no cost.

I'll show you:

Your actual cost per patient

How you're losing potential patients (and money)

The 2-3 things you can fix this week to improve it

To be clear, my goal is to sell you our marketing services.

But I want to give you practical value and insights before we get to that level.

And if we do decide to work together?

We have a very simple guarantee: work with us for 45 days.

If you're not happy with us for any reason (results, communication, or even my voice, which is very pleasant by the way)

You'll get a full refund.

That being said, we are not cheap.

So if you don't have an active clinic and a budget (minimum \$3000), we won't be a good fit.

The next step is to click below and leave your details.

 Super important: After you submit your details, you'll get a link to my personal calendar to book a call with me.

Make sure to take 30 seconds to book your call.

P.S. — If you book within 48 hours, I'll send you a free breakdown of how a random doctor is making \$100K/month with ketamine treatments.

P.P.S. — If your budget is less than \$3000, we can't help you.

That being said though, you can get a LOT of free value from us at no cost.

We share all our methodologies, tactics and strategies on our Youtube & Instagram page.

Just send us a message and we'll give you every resource we have at no cost.
